TABLE OF CONTENTS

<u>Table No.</u>	<u>Page No.</u>
1. Federal order minimum class and blend prices for milk of 3.5 percent butterfat content, f.o.b. market or other indicated point, and butterfat differentials, June.	4
2. Federal order minimum Class I and blend prices for milk of 3.5 percent butterfat content, f.o.b. market or other indicated point, January-June averages.	6
3. Number of producers delivering milk to handlers regulated under Federal orders, total deliveries, and average daily deliveries per producer, June	8
4. Producer milk deliveries used in Class I and gross Class I sales by handlers regulated under Federal orders, June.	10
5. Producer milk deliveries to handlers regulated under Federal orders and deliveries used in Class I January-June.	12
6. Total fluid items, whole milk, skim milk items, milk and cream mixtures, and cream sold in marketing areas defined by Federal milk orders, for markets where such information is available, May, with comparisons	14
7. Federal milk order Class I formula price information, June.	18
8. Prices and economic indexes used in Federal milk order formulas to determine June prices, with comparisons	19
9. Federal order base and excess prices for milk of 3.5 percent butterfat content, June	20
9a. Seasonal incentive fund included under various Federal milk orders, June	20
Major order actions, June	21

HighlightsJune 1966

Producer Deliveries. A total of 129,722 producers, 8,869 fewer than June 1965, delivered 4.2 billion pounds of milk to regulated handlers in 68 comparable markets during June 1966. This represents an increase of 1.9 percent above producer deliveries in June 1965. Average daily delivery per producer increased from 988 pounds in June 1965 to 1,076 pounds in June of this year. Producer numbers, producer deliveries, average butterfat percentages, and average daily deliveries per producer for individual markets are shown in table 3.

Producer Deliveries Used in Class I. The volume of producer deliveries used in Class I in 68 comparable markets increased 1.3 percent from last year, to a total of 2.4 billion pounds for the month of June 1966. The average utilization percentage for June was 57 percent, down from 58 percent last year. Twenty-Three markets showed an increase in the utilization percentage, 6 showed no change, and the remaining 39 markets showed a decrease (See table 4).

Gross Class I sales, which comprise total Class I sales by regulated handlers, in-and-out of defined marketing areas, increased 1.9 percent in the 68 markets for the month of June.

Minimum Prices. The weighted average Class I price paid by handlers in the 68 markets for 3.5 percent milk was \$5.27 per hundredweight, 58 cents higher than the \$4.69 per hundredweight price in June 1965. Minimum Class I prices in June were higher in all 68 markets.

Producers in the 68 markets received a weighted average blend price of \$4.53 per hundredweight for 3.5 percent milk. This is 55 cents higher than the June 1965 blend price of \$3.98. Producers received higher blend prices in all 68 markets. Class prices, blend prices, and associated butterfat differentials, by markets are reported on table 1.

Whole Milk Sales. Total in-area whole milk sales for June 1966 in 68 marketing areas are estimated to be about 1.6 billion pounds, 0.9 percent below such sales in June of last year. Complete May in-area sales for total fluid items, and for the four major fluid product groupings (whole milk, skim milk items, mixtures, and cream), are reported on table 6.

YEAR TO DATE

Minimum Prices. The weighted average Class I price for the January-June period for the 68 markets was \$5.33, 44 cents higher than the \$4.89 price in 1965. The 1966 weighted average blend price was \$4.64, 44 cents higher than the blend price of \$4.20 reported for this period in 1965 (see table 2).

Producer Deliveries and Deliveries Used in Class I. Milk deliveries and deliveries used in Class I are reported for individual markets in table 5. In the first six months of this year, compared to the same period in 1965, producer deliveries for the 68 markets were down 0.9 percent, and deliveries used in Class I were up 2.2 percent. Data for the 68 markets and for all markets are summarized below:

Producer Milk Deliveries and Deliveries Used in Class I, January-June

Markets	Producer Deliveries			Deliveries used in Class I		
	1966		Change from 1965	1966		Change from 1965
	1,000 lb.	1,000 lb.	Percent	1,000 lb.	1,000 lb.	Percent
68 Comparable markets 1/	24,471,628	-234,008	-0.9	15,598,207	+339,215	+2.2
6 Non-comparable markets 2/	3,564,451	-404-543		2,041,855	+238,393	
74 All markets	28,036,079	-638,551	-2.2	17,640,062	+577,608	+3.4

1/ Markets under continuous regulation since January 1, 1965, which have had no significant marketing area expansion.

2/ Tampa Bay, Chicago, and Mississippi. Milwaukee, Rock River Valley, and Northwestern Indiana were excluded because of marketing changes resulting from the termination of the Chicago order on May 1, 1966.

1/ Markets under regulation on January 1, 1965, and which have had no significant marketing area expansions. Excludes Tampa Bay, Chicago, and Mississippi. Milwaukee, Rock River Valley, and Northwestern Indiana were excluded because of marketing changes resulting from the termination of the Chicago order on May 1.

2/ Class I plus Class II = 481,896 thousand pounds in 1966 and 507,482 thousand pounds in 1965; utilization = 45% in 1966 and 46% in 1965.

3/ Handlers regulated prior to the termination of the Chicago order, Milwaukee, 63,127 and Northwestern Indiana, 24,693, thousand pounds.

4/ Adjusted for duplication due to intermarket transfer.

Inland Empire	.30	.30	.30	Tri-State	.25	.30	.30

Amendments:

Inland Empire - June 29 (31 FR 8950, 6/29/66). Amendment increases the amount of milk which may be diverted during the months of April, May, June and July from 25 to 35 percent of the combined deliveries of milk by producers to all pool plants.

Paducah - June 1 (31 FR 7963, 6/4/66). Action provides for the Class I price for Paducah to be based on the St. Louis Class I price plus 15 cents. For plants located within that portion of the marketing area in the State of Missouri, the Class I price shall be the St. Louis Class I price plus 25 cents. This amendment terminates the suspension order made effective May 11, 1966.

Rock River Valley - June 1 (31 FR 8115, 6/9/66). Action removes the distance limitation (not more than 150 miles from the nearer of Janesville, Wisconsin or Sterling, Illinois) on the area within which milk may be moved to nonpool plants and be classified as Class II.

Upper Chesapeake Bay and Washington, D. C. - June 1 (31 FR 6534, 4/30/66). Non-pool plants of governmental agencies distributing fluid milk products in the marketing area would be exempt from regulation under the Washington, D. C. and Upper Chesapeake Bay orders. Fluid milk products received by such plants from a pool plant or a cooperative association, in its capacity as a handler, would be classified as Class I; and, fluid milk products received at a pool plant from such plants would be classified as Class II. Action also revises "handler" and "dairy farmer" definitions. Conforming changes in transfer and allocation provisions.

Suspension:

Southwest Kansas - June 1 (31 FR 8000, 6/7/66). Action suspends the supply-demand adjustment for the month of June 1966. This suspension would eliminate any increase in the June Class I price which would otherwise result from any plus supply-demand adjustment factor.
